MAURICE F. CUNNINGHAM, J.D., Vice Principal
KENNETH A. FABRIZIO, Vice Principal

To The Class of 1982:

This class will always be remembered as the first graduating class to be affected by proposition two and a half. You have experienced the loss of teachers who for two years here at this school have been let go for the sake of economy. Teachers and friends, whose warmth, concern and understanding, have left your memories into the realm of the unforgettable. You have experienced in your concluding year, at the junior high, a near doubling of class size. I have seen you falter, but I have also seen you stand under the change. I have felt your disappointments and failures, but I have also recorded your accomplishments. You have come to us as children but now you have grasped maturity with your fingertips. Your years have been a testimony to courage, initiative and honor.

I know that the counsel and advice of your teachers will not be forgotten as you continue your journey in secondary education. Your successes will be our joys, your troubles our anxieties, and I hope that each of you will retain an interest in and love for your school.

May God's blessing attend you always and crown your efforts with the best possible reward.

Sincerely,

Anthony A. Struzziero
